

# Q & A with Chris Thomas~30th August 2012

[Q] Many of us ready for change are not seeing it and patience is running thin. How would you respond to that?

[A] At the moment, we are in a time when all of the work that has gone before has to settle to its natural level, a kind of consolidation of all of the positive energies that are at work and so it might appear as though not a great deal is happening.

The truth is that there are new positive energies at work that are breaking down the controls of the likes of the Velon/Illuminati. At the moment, the most important one is to do with the financial control, as this is the basis of their power. This power needs to be broken, so that is happening, now. Very soon, we will see major problems with the banks and with economies as the financial structure begins to crumble.

[Q] Many of us are worried and angry about chemtrails in our skies. What are the main reasons for them?

[A] Chemtrails are mainly either insecticides (to kill off the insects that pollinate so that GM has to be grown) as well as chemicals that will make people unwell. I am aware of the nano particles but, I cannot find any that have been used from chemtrails...yet.

[Q] Similarly what about all the HAARP facilities around the world?

[A] Just about every country in the world has haarp stations. They are used for two things - to control the weather, which also kills off insects and normal crops (we have had double our normal rainfall this year in Britain and lower temperatures) but mainly it is used to flood the whole planet with ELF energies (Extra Low Frequencies) in an attempt to slow down the Earth's energies and the rate at which humans can change - this is very deliberate. However, haarp cannot stop us changing no matter how hard they try as all of the positive energies cannot be stopped.

[Q] You mention in one of your books about a new atmospheric layer, what is that for?

[A] The new layer to the Earth's atmosphere is to help in protecting people from increased radiation from the sun so it is beneficial to us.

[Q] There are a lot of empty cities in the world that no one knows what are they prepared for, any ideas?

[A] As far as I am aware, every country has newly built empty towns and cities. I have no real idea of what they are actually for. The only thing that I can think of is that there will be an attempt to empty the country side and put everyone into towns where they can be better controlled. They just have not started on this programme yet but, it would fit in with the aims of Agenda 21 from the Rio climate summit.

[Q] On the internet there have been many pictures of odd "grid lines" in China. Any idea what these are about?

[A] I have no idea what these grids are in China or their purpose but they do seem to be new - in other words they were not built in ancient times like the Nazca Lines in South America.

I know that there are 9 haarp stations in China so the photo that looks like an airport could very well be a new design for a haarp station but I am not certain.

[Q] Are there ET ships around the Earth visible to us?

[A] The three Pleiadean ships have been in orbit around the Earth for many years and have remained invisible to the vast majority of people during that time so the ships are not being hidden by anything man-made, just the energies of the ships themselves.

[Q] How would you sum up the human/Velon/Illuminati relationship now?

[A] Don't forget that we are approaching the "end times", as predicted by the Mayan Calendar. As the energies for change continue to build, the Velon/Illuminati are doing everything they can to disrupt these energies and to distract people away from what they need to do, so of course the Illuminati are becoming more active but their options are limited to what people will believe - they cannot force people to be taken in by them, it has always been the choices made by people that have given the Velon/Illuminati their power. But, as we make use of these new energies, the Velon/Illuminati's ability to mislead is diminishing and so they are trying harder and harder to try to hold on to their control.

It has always been that some people see the truth of a situation whilst most do not - this is what has allowed the Velon/Illuminati to take control. Humans have always found it easier to go along with what they are told to do rather than to stand up and fight. But, this is changing, as we move further through 2012, more and more people are waking up and so the Velon/Illuminati cannot keep hold of their power and control.

[Q] Can we talk directly to the Creator/God?

[A] Humans do not, and never have, communicated directly with the Creator - we are too small to do that, it is organised religions who have also tried to mislead us and control us that have given us the idea that humans can communicate directly with the Creator but, it was never true.

\*\*\*\*\*

[Q] Can HAARP destroy our DNA?

[A] DNA is memory, it has nothing to do with communication and haarp cannot alter it.

[Q] You say a number of people have already undergone soul integration. Are they doing anything to help the rest of us achieve this goal? And can anything in the end actually prevent this process from occurring?

[A] Everyone who has undergone soul re-integration is helping to overcome the Velon/Illuminati as is everyone who is ready to make this change. The problem is that so many people do not want to know what is going on and so do not want change to happen. Also, there are many people who want the Velon to help them, so, [they] are holding the Velon in place by their choice and no matter how much change is wanted, we cannot go against free choice, no matter how wrong that choice might be. But we are getting there. We chose the Velon/Illuminati mainly by choosing not to make a choice. We went along with them instead of choosing not to have them.

The very latest that this change will happen is the 21st of December 2012 and there is nothing that can stop this change from happening. The fact that you are aware of change and want to move forwards is as good a guide as any that you will be making this change. The chances are that once you have undergone soul re-integration, you will live where you are living now. Why would you move away from home? I cannot fully describe what having a whole soul in the body is like as we do not have the vocabulary to describe it. Try to remember that there is nothing that can stop humans achieving soul re-integration. Every soul, within this Universe, wants it to happen and are doing everything they can to help us. The very latest this change will occur is 21/12/12.
